Final office action

RESPONSE TO APPLICANT'S REMARKS

Applicant's arguments, see remark pages 7 and 8, filed on 04/27/06, with respect to the rejection(s) of claim(s) 1-13 and 15-24 under 103(a) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made under 35 U.S.C. 112, 1st and 2nd paragraph, as failing to comply with the written description requirement.

Claim Rejections - 35 USC § 112, 1st paragraph

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

1. Claims **1-13 and 15-24** are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contain subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the art that the inventor(s), at the time application was filed, had possession of the claimed invention.

Nowhere in the specification does the applicant teach, "a transmitting device that does not expect an acknowledgment of an unsuccessful completion (expecting a successful completion rather than completion) for a request transaction". The examiner

Art Unit: 2133

would like to point out that on page 19, paragraph [0067] or figure 12 of the applicant's disclosure only teaches that if the requesting device (transmitter) is with a completion status other than "successful completion" (expecting completion other than successful completion) then a normal operation continues and the value of the completer ID field is recorded, and further the completer ID value is stored and set in a register.

Hence the Applicant has introduced New Matter, which was not described in the specification in such a way as to application was filed, had possession of the claimed invention.

Claim Rejections - 35 USC § 112, 2nd paragraph

The following is a quotation of the second paragraph of 35 U. S. C 112

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention. =

2. Claims **1-13 and 15-24** are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims **1, 7, 13 and 18** recite, "a transmitting device that does not expect an acknowledgment of an unsuccessful completion for a request transaction". The applicant's disclosure teaches that if the requesting device (transmitter) is with a completion status other than "successful completion", a normal operation continues and the value of the completer ID field is recorded, set received unsuccessful completion bit and report error.

Allowable subject matter

3. Claims **1-13 and 15-24** would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 1st and 2nd paragraph, set forth in this Office action.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
